

Experience Summary:

- I am a campus mind of October 2019 batch and I was trained on Java and AWS, during the training period I worked on a project which is a Web based application built using spring boot and bootstrap and deployed the application in the AWS kubernetes cluster.
- Had 6.5 months experience with Informa project

Experience Details

Functional Domain Name	Experience	Description
JAVA	2 months	Trained as JAVA Developer in Mindtree Kalinga
AWS	1 month	Trained on Servies : S3 , EC2 , VPC , Lambda , IAM ,ELB , Docker
Web Scraping	6.5 months	Used intelligence automation for extracting data from websites
PySpark	1 month	Worked on Pyspark coding for registries in Informa Project

Technical Skills

Primary Skills : Java, Spring Boot with JPA, JavaScript, React JS, Html and CSS (flexbox and css grid), Python, PySpark, AWS
[Database](#): MySQL, ORACLE

Secondary Skills: Docker, Basics of DevOps and Android, Web scraping using Diffbot, CrawlBot tools, Deployments using EMR

Project Experience:

Project/Product 1	METRO POKR-206	APR 23 – OCT 5
Customer Name	METRO-nom Gmbh	
Description	Metro Link Plus is a New Supplier Portal, it was developed to onboard suppliers for Metro Company. There will be 'n' number of suppliers for Metro Cash and Carry. All the conversations (sending Documents, sharing Invoices, updates about new branch openings etc...) Between Metro User and Supplier User happens through Metro portal.	

Tools & Technologies	Java, Spring Boot Micro services, Cassandra DB, Postman, SonarQube.
Operating System	windows
Role Played	Developer
Responsibilities / Contribution	<p>Responsible for contribution in development and Fixing the Bugs.</p> <ul style="list-style-type: none"> • Worked on developing spring-based applications. • Worked on Junit and Mockito and ensured that code coverage is above 85% for all spring boot projects. • Worked on Sonar fixes and ensured that there will be minimum number of defects at any given point of time.

Project/Product 2 done in training period	Friendly Home
Customer Name	Kaviarasu Venu, Nadadhur Ramuloo Karthika.
Description	Friendly Home Project, consist of the User, Partner, and Admin in which user can view and schedule a visit to the home which was added by partner and approved by the admin.
Tools & Technologies	Spring Boot, Visual Studio, AWS services such as S3 bucket, Mysql, Kubernetes.
Operating System	Windows 10
Responsibilities / Contribution	<ul style="list-style-type: none"> <input type="checkbox"/> Designed UI for the project. <input type="checkbox"/> Wrote the Controller and Service Implementation for a given task. <input type="checkbox"/> Test cases for Controller and implementation layer.
Role Played	Developer

Project/Product 3	Informa WNS DNA project	Feb 17 – Sep 20
Customer Name	Informa	
Description	<p>WNS delivers information on the entire drug discovery and development pipeline, approved drugs, company profiles, management contacts of pharmaceutical and biotech companies across the globe</p> <ul style="list-style-type: none"> • This includes detailed information on development history, clinical trials and mechanisms of action, patents, molecular structures and regulatory filings. • This includes daily monitoring, updating and tagging of news for pharmaceutical and biotech industries, as well as managing a calendar of events. • This includes delivering projected consensus sales information on both approved and pipeline drug products; detailed forecasts by therapeutic area; and company, mechanism and other drug characteristics 	

- This includes the creation of a historic financial database covering the past 10 years, quarterly financial information from global Pharma majors and daily updates comprising the subject companies' latest press releases.

Tools & Technologies

Diffbot , Data Bricks Community Edition , PySpark , AWS, PostgreSQL.

Operating System

windows, Linux

Role Played

Developer

Responsibilities / Contribution

Understood and analyzed the requirement of the Project.

Responsible for contribution in development and Fixing the Bugs in web scraping.

- Used Diffbot and Crawlbot for extracting data from websites.
- Worked on PySpark code for Registries for 3 weeks
- Worked on Deployments in EMR using AWS and Helped in Bug fixes and UAT Automation

Special Achievements:

Title	Description	Month & Year
Spot On (Perseverance Badge Award)	Appreciation for working quite well with Diffbot and applying some tricks in it. Logical thinking while using collections in Diffbot and Starting with Pyspark code.	Mar – 2020
Spot On (A-Team Award)	Appreciation for completion of major milestone Bronze for the DNA project	July - 2020
Good Team Worker.Spot On (Accountability Badge Award)	Appreciation for completing Automation in UAT environment and for helping in Bug fixing.	Sep - 2020
Spot On (A-Team Award)	Appreciation for completion of major milestone Silver for the DNA project	Sep-2020

Education:

YEAR	DEGREE	MAJOR SUBJECT	INSTITUTION
------	--------	---------------	-------------

2019	B. Tech	Computer Science & Engineering	JNTUA College Of Engineering , Kalikiri
2015	Class 12	Mathematics, Physics & Chemistry	Narayana Junior College
2013	Class 10	Others	Saint Paul's High School

My Strengths:

- ☐ Good Team Worker.
- ☐ Positive Attitude
- ☐ Punctual in work.

Hobbies & Special Interests:

- ☐ Drawing, Playing Cricket
- ☐ Gardening

Current Working Location: Mindtree Chennai.
